

Business is made up of people. We grow our business; we also grow our people. In The Program for Management Development (PMD), we give our people opportunities to grow themselves and their careers at a rapid pace. Suitable talents join as Management Associates (MAs) and are given international and business exposure and assignments to be groomed from junior managers to entrepreneurial leaders driving important initiatives and projects which would make significant impact on our Group or communities we operate in.

PMD offers career opportunities across the Group. The program comprises two tracks to cater to different business needs. The separate tracks enable you to focus on the business that you are truly passionate about and develop specialized skills.

1. The Trading Track offers career opportunities in our global trading, logistics and distribution businesses in the Trading Group. Apart from business functions, we also offer opportunities in our Operations Support Group functions (i.e. Finance & Accounting / Human Resources / Information Technology Services).
2. The Brand and Retail Track offers career opportunities in our brand business in the US, Europe and Asia, as well as our retail business in Asia.

We accept applications to the program from **1 October to 30 November 2015**. Successful candidates are expected to be on board in July 2016.

Our Ideal Candidate

As general requirements, candidates applying for PMD should have a recognized university degree, three years of full-time work experience, excellent command in English and mobility to move around different geographical locations. For specific requirements for the two tracks above, you are welcome to read for more details in our brochure available for download on our website on www.funggroup-PMD.com.
